

Short Curriculum Vitae
Pedro Matias / Pedro M. Matias
February 2021

Pedro Matias is the Head of the Molecular Biophysics Laboratory of the Structural Biology for Drug Discovery, Health and Pharma Division.

He holds a Chemical Engineering degree from the Instituto Superior Técnico and obtained his PhD in Crystallography with the University of Pittsburgh. During his PhD, contributed to 6 publications in international peer-reviewed journals.

He joined iBET in 2008, first as head of the Proteomics Unit, and later Director of the Structural Biology for Drug Discovery Unit.

Current Research:

Applications of Structural Biology and Biophysical methods to the study of proteins with impact in human health and their complexes with novel potential ligands.

CV Highlights: (i) over 103 published papers; 5 book chapters; 1 patents; receiving a total of over 3950 citations (h-index 32) (ii) supervision of 10 PhD students (6 concluded), 3 Master students (2 concluded) (iii) Over 19 oral communications (11 as invited speaker) and 23 poster communications (iv) 7 Research Grants as PI and 15 as team member (v) Member of the European Crystallographic Association and the Portuguese Chemical Society (vii) Coordinator of Curricular Units Structural Biochemistry A and Protein Biogenesis, Folding and Structure.
